# Community pop-up testing sites open

We're still encouraging everyone living, working or studying in Liverpool to get a free Covid-19 test, as part of the city's SMART testing programme.

If you have **NO SYMPTOMS** you can just pop in for a quick lateral flow Covid test. Don't forget to take your mobile phone, if you have one, and your face covering.

## January

| | | |
|---|---|---|
| Every Thurs - Sat from 7th - 30th January | 9am | - 5pm |

We want everyone to get tested regularly, before everyday activities like shopping, going to the hairdressers, the gym or for a night out.

There's also two pop-up sites in the Town Hall and Liverpool One for anyone who's out and about in the city centre.

There's no need to book, just turn up.
